

Uninstalling the OMNI Browser Plugin

The typical location of the OMNI Browser Plugin for Safari:

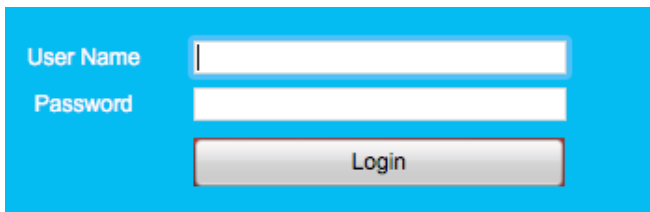

Macintosh HD/Library/Internet Plug-ins/WebVideoPlugin.plugin

Option #1 to Uninstall

- Do a spotlight search for the file name **WebVideoPlugin.plugin**
- Move file to trash

Option #2 to Uninstall

- Open Finder
- Select Go
- Select Computer
- Select Startup Disk (Usually named Macintosh HD)
- Select Library
Please note. There can be multiple library folders depending on the users set up on your Mac. Typically the OMNI Browser plugin will install in the top folder under Macintosh HD and NOT under the Library folders of a user. Simply follow the instructions above to find the correct Library folder.
- Select the Internet Plug-ins Folder
- Select **WebVideoPlugin.plugin** file and move to trash

User Name

Password

Login

Please Note:

After reinstalling the browser plugin, when you get to this login screen the login button may NOT work. Simply enter your user name and password and **then just hit the Enter/Return Key on your keyboard to login.**
